- ✓ Privacy is assured. Tochie is NEVER listening

Best For: Household routine, family connection, vision impaired.

"Hey Mum, don't forget to put the red and green bins out tonight. Have a good sleep.

Love Paul"

Safety and Autonomy at Home

Smarturns

Smart stove knobs for safer cooking and peace of mind.

Smarturns helps reduce the risk of kitchen fires by alerting the user and family if the stove is left on whilst cooking.

The knobs easily install on the users existing cooktop (gas or electric). This means the user has nothing new to learn when operating their stove.

Smarturns supports ongoing independence at home.

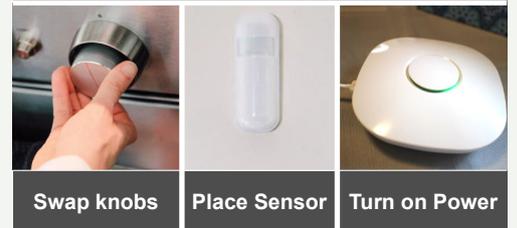

If the stove is left on and unattended, the user will be alerted whilst the family or carers will receive a notification so they can take the appropriate action.

- ✓ Reduces the risk of fire
- ✓ Peace of mind for carers & family
- ✓ Nothing new to learn for the user
- ✓ Installs in minutes. No tools or trades required
- ✓ Fits any gas or electric stove that is operated with knobs
- ✓ A Smarturns kit includes: 4 x Knobs, Motion Sensor, Hub
- ✓ Lifetime free subscription to the Smarturns alert service

For remote alerts, a WiFi internet connection is required. Local alerts will operate perfectly without a WiFi connection.

Three easy steps to install

Meaningful Engagement & Social Connection

Relish music player/radio

"Bought this for mum who loves listening to radio but cognitively could no longer operate standard ones. She could instantly use this, I didn't have to explain how to operate, was intuitive. Wish I bought it sooner"

- ✓ Dementia and Vision impaired friendly
- ✓ Personalised connection to music/radio
- ✓ Label stations with familiar names for easy access
- ✓ No abbreviations, tactile easy to read/feel buttons
- ✓ Simple to use for carers and loved ones alike
- ✓ Digital Radio, FM Radio & MP3 for Music and Audio Books

Easymote - Big button TV remote

The easiest remote ever. Over 200,000 users & recommended by some of the largest care providers in the USA. Now available in Australia.

- ✓ Dementia and Vision impaired friendly
- ✓ Large tactile backlit buttons for clear visibility in low light
- ✓ Personalise with included stick-on labels
- ✓ Super easy to program. Only takes a couple of minutes
- ✓ Works with any TV/Set Top Box inc. Foxtel & Fetch
- ✓ Two colour options for multi-room applications
