- ✓ No subscription costs ever!
- ✓ Automatically adjusts for daylight savings
- ✓ Designed & Developed in Canada
- ✓ Schedule time & weather announcement

Enabling Remote Care and Emotional Connection.

Tochie is a Wi-Fi enabled smart speaker where family & carers can record personal voice messages to playback at specific times. Use the free mobile app to record a gentle nudge for self-care or a personal goodnight message of love.

Each message can be scheduled to play at a certain time/date, sent instantly, or set to a desired repeat schedule. Easy to use it offers a stylish, dignified way to send prompts, reminders or messages of love.

A lifetime subscription is included in the purchase price, so there are no ongoing costs.

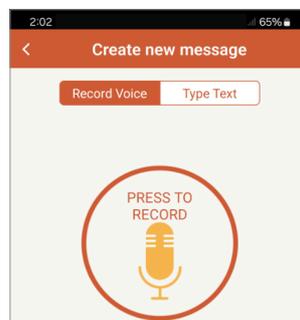

Example messages:

- "Hi Mum, Just a friendly reminder to take two Panadol before you go to bed. Have a nice sleep. Love you!"
- "Hey Dad, It's bin night tonight, put the red and the green bin out in the street. I'll call you tomorrow."
- "Hi Grandma, I'm going to bed now, maybe you should too. Don't let the bed bugs bite. Love you!"
- "Hey Mum, it's time for the evening news if you want to watch it."

Easy To Use.

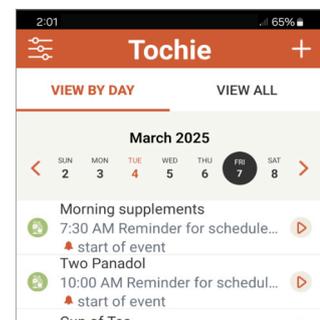

1 Connect to WiFi

2 Record Message

Use the app to instantly record the message on your phone.

3 Schedule Playback

Set the date, time, recurrence and number of times you want the message to repeat.
